Woodside gets cleaning at Rocky Bay!

Rocky Bay is a leading provider of disability services, offering choice and independence to people of all ages living with disability in Western Australia. On the 2nd of August a Contracting and Procurement team spent the day in the sun volunteering at Rocky Bays main site in Mosman Park.

The day began with the team splitting into 2 groups- one for mulching and one for car/van washing. The mulchers made their way to the onsite Lucy Creeth Residence village where a 15 cubic meter pile of mulch was eagerly awaiting them. The group mulched all the residents gardens and cleared the pile of much by lunch time!

Amongst the amazing facilities that Rocky Bay has is an art studio. Several volunteers were lucky enough to get the opportunity to spend the afternoon helping clients with painting their pottery.

On the other side of the site, 4 volunteers were busy cleaning client transport cars and vans with the guidance of Rocky Bay car detailer Michael. By the end of the day the team had matched the existing record of washing 10 vehicles.

You can view all pictures from your volunteering day [HERE!](#)

YOUR DAY IN QUOTES:

 Learning about the challenges others face in the community.

 Meeting and interacting with staff and clients.

 Giving back to the community and understanding the broad services and facilities provided by Rocky Bay.
