

Woodside

CONTRACTING AND PROCUREMENT TEAM WEEDING WOODMAN POINT RESERVE

Woodside's Contracting and Procurement spent their team volunteering on the beach within Woodman Point Reserve on 18th September. It wasn't a typical day at the beach as the day was spent working with Perth NRM to rid the reserve of pesty weeds and later a fence dividing the areas was taken down by some very energetic volunteers.

The day started off with a walk along one of the popular walking/bike paths in the area. Kathy, Manager at Perth NRM walked the team through the parts that have been managed by Perth NRM which have been weeded and regenerated over the past few years. This was exciting and filled the team with hope with what the area would eventually look like!

"Lovely to be
outside near the
coast"

"Satisfaction in
removing
weeds!"

The team achieved a great deal of work in such a short amount of time! They filled up over 50 bags full of weeds and executed an extremely challenging task of taking down a fence - which involved digging up several bollards and rolling up wired fencing. Absolutely astonishing work team! The team were fortunate enough to have missed the storm until the very end of the day when the team photo was taken.
