Kanyana Wildlife Rehabilitation Centre is a not-for-profit organisation dedicated to wildlife conservation. They care for sick, injured, orphaned, and displaced wildlife; breed threatened species; conduct training and research; and educate schools and community.

The C&P team broke up into smaller groups and to help tackle some of Kanyana's labourious tasks, including; shovelling wheelbarrows of sand out of the Bilby enclosures, then replenish with fresh clean sand for the Bilby's to live and play in. A group tended to the Black Cockatoo's enclosure and gave it a big clean and spring clean by sweeping, washing the floors and bringing in new perches for the cockatoos.

Others helped with mulching various parts of the site, weeding within the emu enclosure and helping the hospital volunteers with the regular day-to-day up keep.

Thanks for your hard work team!
