## WHEELIE WONDERFUL! MAKING A DIFFERENCE AT DISMANTLE

### Your day in quotes:

It's great to spend  
the day learning how  
to do something  
completely different!

Building for someone  
else is such a great  
motivator.

Doing good work to  
help some of our  
youth find their way.

Team spirit!

Chilly but sunny Autumn weather greeted Woodside's Scarborough BU1 on Friday 17 May, as the team rounded out their working week on a productive, fulfilling and fun corporate volunteering day at a local bike rescue organisation.

Dismantle, a youth-focused not-for-profit, works to educate at-risk young people with hands-on mechanical skills, by mentoring them in cleaning and fixing bikes. Social skills, confidence and teamwork are some of the major, valuable skills also learned through the BikeRescue program. Participants are further able to harness their own sustainable transport solutions in everyday life, by using their repaired bikes.

Woodside

Learned about bike workings and knowing it would help someone.

The people at Dismantle are very patient and very passionate!

This program fits perfectly with Woodside's own corporate ideology - to make cities inclusive, safe, resilient and sustainable - which particularly encourages the use of bikes to keep the city's air clean.

This volunteering day saw the Scarborough BU1 team buckle down and focus hard, fixing, adjusting, testing and readjusting a range of mechanical and structural issues on donated bikes - including rewiring breaks and gears, fitting and pumping tyres, and attaching pedals. It wasn't always easy work, but it was extra fulfilling when a troublesome issue was finally repaired!

The team made a big impact on the the number of bikes Dismantle had awaiting repair: around 10 bikes were fully repaired.

Any sale of these bikes will directly support this wonderful organisation!

Thank you Scarborough BU1 team, for doing such an amazing job - you made a true difference to young, at-risk lives through your work.
